EDUCATION

Pune Institute of Computer Technology, Pune
Bachelor of Engineering in Information Technology

CGPA: 9.486 / 10
Aug 2023 – June 2027

EXPERIENCE

MERN Stack Intern

Uptoskills

(Jan 2026 – April 2026)

- Engineered **AI Resume Builder** with ATS scoring, cover letter generation, and LLM-powered content enhancement.
- Built a **headless PDF export pipeline** using Puppeteer and implemented a **subscription plan-gating engine** enforcing Free, Pro, and Lifetime tiers across templates and AI features.
- Led **MongoDB to PostgreSQL migration**, restructuring schemas and connection pools while maintaining full backward compatibility across all routes and controllers.

PROJECTS

QueueWise: Real-Time Virtual Queue & Geospatial Platform

- Architected and developed a **real-time virtual queue platform** that eliminates physical waiting lines using **Socket.io WebSockets**, enabling **instant position updates**, **live wait-time estimations**, and **1:5 priority-interleaved queue recalculations**.
- Implemented **geospatial business discovery** using **MongoDB 2dsphere** indexing and **\$geoNear** aggregation pipelines, filtering nearby counters by **geodesic distance** with interactive **React-Leaflet** map rendering.
- Built an **automated alert & queue maintenance engine** using browser-native **VAPID Web Push Service Workers** and **node-cron** background tasks, backed by **Cloudinary CDN** media uploads, **dynamic QR code check-ins**, and secure **JWT** authentication.
- Tech Stack:** React, Node.js, Express.js, MongoDB, Socket.io, Leaflet, Cloudinary, Web Push API, JWT.

Prepify: AI-Powered Interview Preparation Platform

- Architected and developed a **full-stack AI application** that analyzes resumes against job descriptions using the **Google Gemini API**, generating **personalized match scores**, **interview questions**, and **skill-gap reports**.
- Enforced **strict structured AI output** using **Zod** schema validation, ensuring **reliable JSON responses** for match scores, question banks, and **day-by-day prep plans**.
- Built an **AI-powered resume tailoring engine** that generates **ATS-friendly resumes**, converting AI-generated HTML into downloadable PDFs using **Puppeteer**, backed by secure **JWT** authentication and **MongoDB** data persistence.
- Tech Stack:** React, Node.js, Express.js, MongoDB, Google Gemini API, Zod, Puppeteer, JWT.

TECHNICAL SKILLS

- Programming Languages:** C++, Python, Javascript, SQL
- Frameworks & Libraries:** Node.js, Express.js, React.js
- Databases:** MongoDB, MySQL, PostgreSQL
- Tools & Platforms:** GitHub, Vercel, Render

CODING PROFILES AND Achievements

- LeetCode** (Swaraj_249): Solved 250+ problems spanning DSA and SQL.
- GeeksforGeeks** (swaraj7hsa): Solved 150+ problems strengthening problem-solving fundamentals.
- Gate CS & IT 2026:** Qualified

Co-Curricular Activities

Event Lead, Fandom Event – Pulzion Fest 2025

- Led end-to-end planning and execution for Pulzion Fest 2025, managing logistics and cross-functional teams to drive strong turnout.

Domain Head, Machine Learning – INC Event

- Led the Machine Learning domain at INC, overseeing content and mentoring participants alongside fellow organizers.
